Activation Ideas

Invite an Expert

Invite an elder, professor, or community leader to speak to one of the specific modules. For the third module, for example, you can invite a treaty expert to come and speak to the group on treaties. Is there a Native Women's Association in your community? For module 9, ask one of the staff to come in and talk a little bit about what the association does, some of their programs and events, and what kind of activities they offer to the community.

Alternatively, you can invite an Elder to open and close the Learning Circle. You may ask them to do an opening prayer for the first session, and come back again at the last session to close the Learning Circle. The Elder may even want to open and close each session, and be present at all the Learning Circle sessions. Ask them how they'd like to be involved.

Time Commitment: A one-time event, lasting about an hour.

What You'll Need:

- Access to a list of potential speakers
